## SCAVENGER HUNT

\* Use your senses to learn more about earth.  
Take steps to care for the earth.  
Have fun while you're doing it!

1. Sit under a tree for five minutes.

What I heard...

What I saw...

2. Draw and identify two wildflowers you find.

3. Visit a source of water and look for wildlife.

Where I went and what I found...

4. Draw 4 different rocks that you find. Identify them if you can.

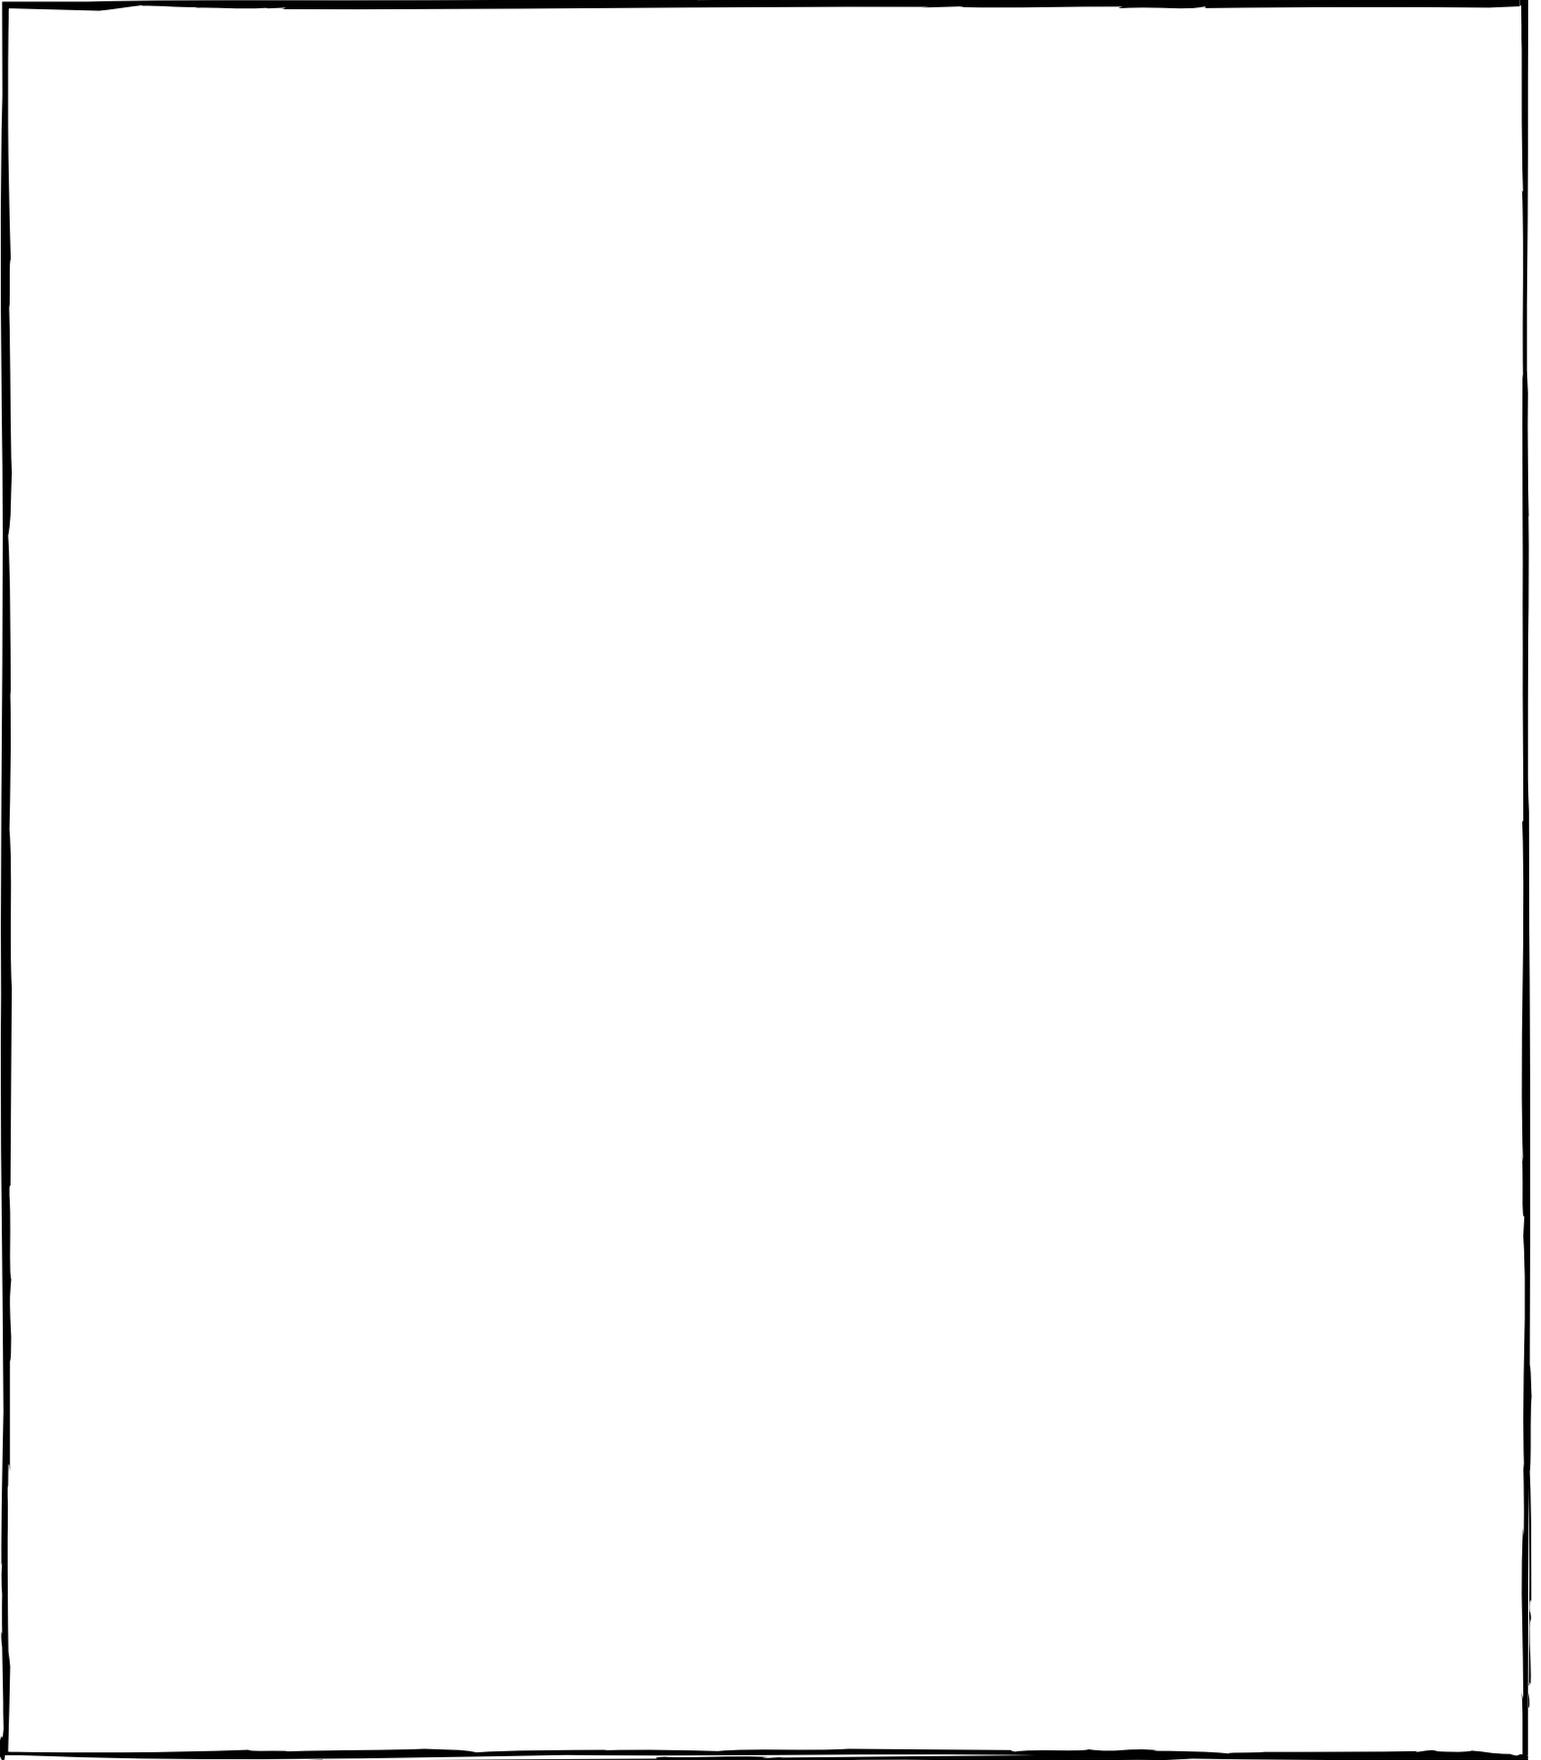

rock one

rock two

rock three

rock four

5. Fill this page with bark rubbings from various trees.

Trees I use for bark rubbings:

6. Pick up and recycle or throw away any litter you find (use gloves if necessary!)

What I found and how I took care of it...

7. Find any sources of pollution and list any possible solutions to the problem.

What I found...

8. Look for and draw any pollinators (bees, butterflies, etc).
